

Women's Clinic Of Northern Colorado

OB GYN Sonographer – Part-time to Full-time options (Internal)

Description

- Shift Details: Per Diem, Part time, Full time: 3 days a week with potential to work 4 days weekly.
- Monday through Friday 8am-5pm, no weekends or holidays and no call.

This position performs a variety of OB GYN exams under the direction of a physician for identification of abnormalities leading to patient diagnosis.

Scope:

- Produces high quality ultrasound images and obtains appropriate measurements for each exam.
- Recognizes the sonographic appearance of normal and abnormal tissue structures and provides the best image quality for documentation.
- Documents all applicable patient and procedure data consistently and correctly.
- Obtains and evaluates pertinent patient history and physical findings that may affect the sonographic examination.
- Explains procedures adequately to patients to maximize patient comfort and cooperation.
- Monitors during all phases of procedure with special care taken to insure patient emotional and physical well-being.
- Communicates patient information in a professional and courteous manner to patients and to referring physician offices as required.
- Maintains the ultrasound equipment for cleanliness and ensure proper equipment maintenance and equipment safety.
- Calibrates and maintains equipment and orders supplies when needed.
- Schedules and coordinate tests.
- Prepares and maintains operational logs.
- Assists with Quality Assurance/Improvements audits and activities as required.
- Promotes mission, vision, and values of The Women's Clinic, and abides by service behavior standards.
- Performs other duties as assigned.
